

Clark Forklift Attachment

Clark Forklift Attachments - At present, there are at least 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of forklifts, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very impressive intercontinental support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark's continual effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the system of "Lean Production" at all of its assembly plants because this technique is particularly economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is intended to find and acknowledge the most efficient ways for manufacturing plant stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the proficiency and excellence of their merchandise while minimizing costs. The contemporary value engineering agenda combines progressive product development and delivers improved consumer support and service within the industry.
