

Meritor Part

Meritor Parts - Meritor is a premier international supplier which is proudly built on a 100 year tradition of quality and service. They concentrate on a broad range of modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor promotes innovation and collaboration among a team of experienced experts.

Meritor strongly believes in only employing future focused workers. These top-caliber people can rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance necessary in order to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides all their employees different chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, braking and suspension systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of their worldwide engineering employees.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all around the globe in 19 nations and in 5 different continents.

The supplier development network is particularly situated in order to support new business growth. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within every part of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability in every region. The team is likewise included transactional Green Belts who use Six Sigma tools to business processes and implement lean methods.
